Baltimore, Md., April 26 .- Throughout the United States with banquets, processions, meetings or other forms of demenstration the million or more of men who are linked together in the fraternal bonds of Odd Fellowship are to-day celebrating the seventy-fifth birthday of that organization. Nor has it yet reached the seme of its success, for more persons are joining it to-day than ever before in its history. Massachusetts alone has 50,000 members, an increase of more than five thousand over a year ago. and many other states show similar progress. Iwo Indian Murderers Attempt to Cheat the Gallows.

ONE OF THEM WILL DIE.

Three Navajo Indians confined in the sunty jail on the charge of murdering. a few weeks ago, D. M. Smith, merchant and Indian trader at Defiance Station, this morning made a determined effort to anticipate justice by taking their own lives. They had for some time discussed prisoners in the jail the different methods which might be adopted to accomplish this purpose and finally concluded that the best plan was to throw themselves head foremost from the top of one of the iron cages of the jail. One of the trio with homicidal intent demorred to this manner of shuffling off the mortal coil and yet lives to view the sad plight of his companions and is no doubt content to allow the law to take its course.

At about 7 o'clock this morning the two men who were determined on their course, assended to the top of a care, but were promptly pulled down by fellow prisoners The Indians, however, were persistent, and hastily climbed to the top of the cage again and immediately jumped off head foremost. The head of one struck a projecting iron bar, breaking his neck, while the head of the other struck the stone floor of the cell, seriously fracturing his skull. The county physician, who was called, says the latter will recover, but at this hour-3 p m - the Indian with a broken neck is in a dying condition and will probably die before
